Message From The Principal

You are making the right choice. This is the point where you change your life. Let us help you!

Magic Info About This Course

With experience, you may be able to progress to salon management or start your own business. You could open your own salon, rent space in a salon, or run a mobile business visiting different salons or visiting clients in their homes.

Who Is Skills Academy?

Everybody has the Right to Study. Once you have started your studies; we make sure that you finish it successfully.

Our students know what they are doing! Our course timetable ensures that the student understands when to hand in every assignment

Its personal! The calendar is pre-populated and personalised for every student based on enrolment date

We won't let you quit! The academic team will follow up on every portfolio of evidence to ensure the student completes their course

We are here for you! Lecturers are in house, not externals so we can help students quickly and easily

We are in touch every day! We have study groups where the student can engage with students and lecturers daily

We keep you studying! We courier all study material and certificates so that you don't wait!

Speed matters! Our courier turn around time is on average 3.4 days instead of the 7 to 10 day norm

We help students fast! We have a same day policy on all queries and complaints

Skills Academy History

Skills Academy is part of the Home Study Group, with over 30 years' experience in home study or distance learning. Our team includes people who have been involved in home study for over 25 years. We are accredited by both the ICB (Institute of Certified Bookkeepers), and QCTO (The Quality Council for Trades and Occupations), and we are also a member of APPETD (Association of Private Providers of Education Training and Development)

Beauty Therapy Expert Subjects

1. Professional Salon Skills

This chapter gives you a good introduction into the beauty industry and how to conduct yourself professionally in the salon environment. It will also talk about how to prepare for your consultation with a client, which is one of the most important elements you need to master as a beauty therapist.

2. Introduction to Make Up Application 1

Before you start to apply make-up to the face there is a lot you need to know. We start with module with a look at the anatomy of the face; the facial bones, shapes and muscles. You will then learn what tools you need to apply make-up, and how to care for those tools. It then discusses use of colour, foundation, concealer and how to contour a face with make-up

3. Introduction to Make Up Application 2

You will now learn how to apply make-up to the eyes and lips, as well as what make-up is appropriate for clients of different ages. You will then look at make-up for special occasions such as weddings and black tie events and then look at different styles of make-up that you can start to experiment with as you get confident in this subject.

4. Facial Skin Care Theory

This subject will give you a better understanding of skin before you move on to discussing facials in the following subject.

5. Facial Skin Care Techniques

In this subject we discuss preparing the treatment area, consulting with the client and then how to do various facials. After care advice is also important in any treatment!

6. Lash and Brow

The client consultation is the most important element to get right for any beautician, so we once again discuss the lash and brow consultation. We also discuss brow services, lash services and lash and brow tinting.

7. Nail Technician: Manicure and Pedicure

We start with the history of nail care and more detailed anatomy of the hand and foot. Then we outline what tools and equipment we need before learning how to conduct both a manicure and a pedicure. Remember that the preparation and massage are as important as the application of the nail varnish, so study these parts very closely.

8. UV Gel Nails and Decoration

This unit teaches you how to apply UV gel nails, and how to decorate nails. There are three assessment tasks so that you can practice what you have learned.

How do you make a Career in the Beauty Industry?

Beauty therapy is a career with a fantastic future and really is a job for life. You can start in this industry without a Matric. All it requires is an interest in beauty and that you enjoy working with people.

You can start at the bottom, and work your way to the top.

As a beauty therapist you could work alongside other beauty professionals in a salon, spa, or health resort. You can find work on a cruise ship, film sets, in theaters, or in the fashion industry. You can become a specialist in a particular field, such as nail technology, make-up artistry or even start a new beauty salon of your own.

TWP Study Groups

Together We Pass is an online study group resource for students. TWP takes the loneliness out of home study by facilitating learning through peer-to-peer study groups, helping you to pass your course easily. TWP offers you these great features:

- Your lecturer is online daily to help you
- Same day response time to your queries
- Resource tab for sharing extra resources
- Chat forum for extra help and support
- Admin and general support
- Discuss assignments and get help with assessments
- Daily emails to let you know what is happening in your study group

Beauty Therapy Gifts

At Skills Academy we want to make sure that students get everything that they need to succeed, this is why we offer a fabulous gift, valued at R2000 to students who pay the cash price for the Beauty Therapy Comprehensive Expert Certificate course. Students can choose between light to medium or medium to dark skin tones.

Students who pay terms with a deposit will also be spoiled with a R300 gift, to help kick start their beauty therapy careers.
